MONTANA STATE BOARD OF REGISTRATION  
For  
PROFESSIONAL ENGINEERS AND LAND SURVEYORS  
  
22nd ANNUAL REPORT

Senate Bill No. 147, which was an act to amend sections of the Revised Codes of Montana, 1947, was signed into law March 10, 1969, by Governor Farrest H. Anderson.

The act included the definition of the term "practice of engineering" to provide for "the increase of the members of the State Board of Professional Engineers and Land Surveyors from five to seven; to declare the practice of engineering and surveying without a license a public nuisance; to provide for oral and written examinations of applicants and registrants; to provide for additional grounds for revocation, suspension, refusal to renew, and reprimand of registrants for gross negligence and felony, and failure to follow corner recardation act; to provide procedural changes for filing charges against a registrant by an aggrieved party; and to provide for repeal of all acts and parts of acts in conflict therewith."

The Board of Registration for Professional Engineers and Land Surveyors has been making the necessary changes in procedure to regulate and abide by this legislation.

The functioning of the agency is conducted by a Board consisting of five professional engineers, no more than two from the same branch of professional engineering, and two registered and practicing land surveyors (to be appointed by the Governor). The operation of the agency is under the direction of an executive secretary who is a registered professional engineer and an full-time administrative assistant who is in charge of the office.

During the fiscal year, the Board held five meetings throughout the state. At these meetings, applications were reviewed, examinations discussed and reports outlined. The office was moved to new and modern quarters located at 1212 Helena Avenue in January.

Several members of the Board represented Montana at national and regional meetings of professional engineers and land surveyors in striving to provide better cooperation between the boards of other states and improving internal administrative practices.

The following statistical report is presented as of June 30, 1969:

Total registered professional engineers.....	1,560
Total registered professional engineers and land surveyors.....	337
Total land surveyors.....	185
Current financial balance.....	\$7,433.36

Respectfully submitted,

*W. C. E. Heinecke*

## TO THE PUBLIC

The registration of professional engineers and land surveyors is required by Chapter 150, 1957 Laws of Montana. Under this law individuals who desire to practice are required to demonstrate to the Board of Registration, which is composed of registered professional engineers, that they are competent and trustworthy. The purpose of this law is probably best stated in the words of the 1957 legislature in Sec. 1, as follows:

"That in order to safeguard life, health and property, and to promote the public welfare, any person in either public or private capacity practicing or offering to practice engineering or land surveying shall hereafter be required to submit evidence that he is qualified so to practice and shall be registered as hereinafter provided. . ."

Individuals who have qualified to practice Professional Engineering or Land Surveying work have one. Some are qualified to practice both. Those who are not qualified do not have one and cannot get one.

The above card is your assurance that the Board has certified the recipient to be properly qualified.

**SEE THAT THIS SEAL IS ON YOUR PLANS**

Registrants are required to stamp their seal on all plans, plats, specifications, and reports which are filed with public authorities.

There are many efficient and trustworthy men in the State who are capable of doing essential sub-professional work. These instrument men, rodmen, chainmen, inspectors, and other sub-professional men are assistants and technicians who help the professional engineer and land surveyor in his work. There are also a considerable number of Engineers-in-Training. The latter have demonstrated their knowledge of the theory and fundamentals of engineering and are gaining the practical experience necessary to qualify them to take responsible charge of professional work.

Section 66-2347 of the Registration Law specifically exempts employees or subordinates doing professional engineering or land surveying work provided they work under the direct responsibility and supervision of a registered individual.

Each year some of these men have gained sufficient experience and knowledge to perform responsible and professional work and obtain certificates of registration after passing a written examination.

## **THE NATIONAL COUNCIL OF STATE BOARDS OF EXAMINING ENGINEERS**

The National Council of State Boards of Engineering Examiners, founded on November 8, 1920, of which Montana is a member, is an advisory and coordinating agency established primarily to assist State Boards of Registration for Professional Engineers in a cooperative effort for more efficient and uniform administration of state registration laws. Its functions and activities include the certification of engineers, jointly with State Boards, for registration by endorsement and service to State Boards, engineering societies and individual engineers as a national clearing house and information bureau for matters pertaining to the legal registration of professional engineers.

The National Bureau of Engineering Registration is operated as a function of the National Council of State Boards of Engineering Examiners, under the direction of a standing committee of the Council, with an Advisory Board of representatives from national engineering societies. It was established primarily to minimize the effort and expense of engineers desiring to secure registration in more than one state. The Bureau also constitutes a clearing house for state registration authorities, societies and others acting as a reliable source of verified information regarding professional records of engineers.

Engineering registration laws in some form are in effect in all states, District of Columbia, Puerto Rico, Guam, Canal Zone and the Virgin Islands. Practically every Engineering Registration Board is a member and all Boards participate in the activities of the National Council of State Boards of Engineering Examiners.

Information in regard to the activities of the National Council and the work of the National Bureau of Engineering Registration may be obtained by writing to:
